**RE: 2018 Sewer Performance Annual  
Report for the Town of Jamestown  
WQCS 00314**

Gentlemen:

I am pleased to provide this sewer report since the Town of Jamestown did not experience reportable sanitary sewer overflows for the year 2018. We intend to keep 2019 equally successful.

The Town of Jamestown collects wastewater and discharges into the City of High Point wastewater collection system where treatment occurs at the Eastside WWTF.

This letter is available on the Town's website ([www.jamestown-nc.gov](http://www.jamestown-nc.gov)) and at Town Hall located at 301 East Main Street. Public notices are provided in utility billings. This report is accurate and complete to the best of my knowledge. Please feel free to contact me at 336-454-1138 should you have any questions or concerns.

Respectfully,

  
Paul R. Blanchard, PE  
Director of Public Services
